

# President Nelson LOVES Primary Children!

**T**he Primary turns 140 years old this month! President Nelson was once a child of Primary age, just like you. Now he teaches children to choose the right. In April, President Nelson visited Primary children around the world!

*President Nelson met children in Bangkok, Thailand, where a new temple will be built soon. He told people how much the temple will bless their country.*

*Can you imagine shaking hands with the prophet and his wife? These boys met President and Sister Nelson in London, England.*

*Many families went to hear President Nelson speak in Nairobi, Kenya. A new temple will be built in Kenya too!*
