

## How do I replace the old version with the new 2013 edition in the Gospel Library mobile application?

### Apple

To update to the new 2013 scriptures in Gospel Library on Apple follow these 3 steps:

#### 1. Remove the old scriptures from Gospel Library

- Tap the Home button on the lower left hand area of the screen
- Tap the “Manage Library” at the top of the screen
- Tap “Scriptures”
- Tap “Remove All”
- When the alert displays asking you to confirm, tap the “Remove” screen, and verify that the scriptures collection is no longer present

#### 2. Restart the Gospel Library

- Press the hardware Home button on your device
- Double-tap the hardware Home button to view your recently used apps. Your most recently used apps appear at the bottom of the screen, in order starting from the left. Flick to see more apps.
- Touch and hold the Gospel Library app icon until it begins to jiggle, then tap the red minus sign.

#### 3. Download the new 2013 scriptures

- Open Gospel Library
- Tap the Home button on the lower left hand area of the screen
- Tap the “Manage Library” at the top of the screen
- Tap “Scriptures”
- Tap “Download All”
- Tap the Home button on the lower left hand area of the screen
- At this point you can watch the new 2013 scripture content appear as it downloads and installs.

### Android

To update to the new 2013 scriptures in Gospel Library on Android, select the “Update Now” button from the “Content Update Available” prompt. You should see this prompt when you open Gospel Library.

If you don't see the prompt, you can manually check for updates:

- Ensure that the catalog is up-to-date by tapping the “Refresh” icon on the home screen. Then select “Refresh Catalog.”
- Once the catalog is up-to-date, tap the “Refresh” icon again from the home screen, then select “Update [x] items.” (Note: this option is only visible when there are content updates available.)

You will see a “Downloading” message in the notification bar while the updates are downloaded and installed. When the updates are complete, the new 2013 scripture content will be available to read.

### Blackberry

To update to the new 2013 scriptures in Gospel Library on Blackberry, select "settings" then "download latest content" to download the new edition of the scriptures.
