

WHAT IT WILL BE LIKE WHEN I AM SELF-RELIANT	WHO OR WHAT COULD CAUSE ME TO QUIT SCHOOL	WHAT I WILL SAY OR DO TO STAY ON TRACK
<p>When I finish my certificate, I will be able to be an electrician in the city making a lot more money than I could make in my small town. I will be much better able to provide for myself, and it will feel good.</p>	<p>My parents weren't happy that I went away to school. I know my father will come soon to demand that I come home to work in the fields and provide for my parents and brothers and sisters.</p>	<p>I will tell him that I love him but that I must finish my education so that I can better prepare to provide for myself and for my future wife and children. I will explain how my choice will also benefit them as I will be able to help them better. I will get a priesthood blessing to help me have the courage to say these things to my father.</p>
