

ADVENTURES IN THE UAE

with Margo and Paolo

I'm getting hot and thirsty!

Let's drink our water in the shade at that oasis.

Let's keep moving. Oryxes can go without water for weeks, but we can't!

Hey! Is that an Arabian oryx? I want to stop and take a picture!

Mmm. Water is so delicious.

And so wet!

Join the
Helping Hands Team

Victoria wants to help people have clean water. You can help too by not wasting water. And you can help keep it clean.

Challenge: Look for living things in a pond, river, or ocean near you. You can help protect them by picking up trash near water and not putting harmful chemicals down drains.
