

“He Taught Us to Love”

Have we forgotten
What really matters
What really matters
It gets complicated
Life's moving faster
It keeps moving faster

Pre:
Maybe we should go back to the basics
What we learned when we were young
That simple life He taught us
Remember what it was

Chorus:
He taught us to serve one another
Repent and forgive
Have faith have hope
Live how He lived
Pray to the Father
Never give up
He taught us to love
He taught us to love

Everyone's different
But we want the same thing
We want the same thing
Listen to your heartbeat
The sound that it's making
Proves something is changing

Pre:
We should go back to the basics
What we learned when we were young
That simple life He taught us
Can you remember what it was

Chorus

He taught us to love X4
