

## **“I Will Follow Him”**

There are so many choices  
Which way should I go  
And I don't trust myself  
To find my way back home  
But there's a light in the distance  
That he holds up high  
And he beckons me onward  
Through the night

Chorus:

I will follow Him  
Wherever He may lead me  
I will follow Him  
Through the darkest night  
Though at times I'm walking blind  
I feel His love sustain me  
Until he takes me home again  
I will follow Him

Though I pass through the desert  
And I sink in the sand  
He will always be with me  
Wherever I am  
He knows just what I'm needing  
And he'll take me there  
If I'm bruised and I'm broken  
I don't care
