

“The Unknown”

We usually wanna keep it simple
Always trying to play it safe
'Cause if we venture out a little
We might end up
Losing our way

These dead ends and mists of darkness
Keep us stranded on the ground
'Cause that voice inside our head says
You're not enough
You're all alone
It's too late now

Chorus:
Don't be afraid to face the dark
There's a light inside your heart
And it'll help you climb that mountain
So show your faith and take that step
He'll make you better than you've ever been
If you go
Into the unknown

It's not easy taking chances
We always try to plan ahead
Because it isn't human nature
To just let go
Take that jump
Trust in Him

Chorus

Instrumental

Chorus
