

"Footsteps"

You hear a voice inside your soul
It beckons to you
It echoes through you
You're scared to pass through the unknown
Your strength is fading
Your thoughts are racing
But something
Something pulls you forward
There's a light inside you
Yearning for more

Chorus:

Step into the dark
And don't be afraid
Every star in the heavens
Is lighting your way
If you feel like you're lost
You're not alone
Just follow His footsteps
And He'll lead you home

Your hope is stronger than your fear
It's growing brighter
You're getting stronger
You know now that you can't stay here
Your heart is burning
A prayerful yearning
For something
Something in the distance
He will lift you up to
Where you belong

Chorus

Bridge:

And with every step He will ease your pain
With every heartbeat you'll feel a change
He's beckoning to you calling your name

Chorus
