

## **“Hide”**

We could keep living in the shadows  
Cause someone might not understand  
We could turn around and just stay quiet  
But if we're quiet they won't know what they could have

Pre:  
Cause some people are searching for something that they missed  
And we could bring them back to life

Chorus:  
We don't need to hide  
The things that we believe in  
We want the world to see it  
So we can share the light  
We don't need to be  
Ashamed of how we're living  
Cause the things that we've been given  
Keep our hope alive  
We don't need to hide

We should be out in the open  
So that everyone can see  
How His perfect love has changed us  
How his mercy set us free

Pre

Chorus

Bridge:  
Cause if we do we'll think that we're the only ones  
But if we show our hearts we'll see we're not alone  
There are those who want to know the things we know
