

"His Name"

There is power in His name
He can heal a weary soul
He can bring the dead to life
He can turn our dust to gold

There is power in a prayer
He can take away the pain
There is beauty all around
When we're kneeling down
There is power in His name

Bridge:

When He speaks the heavens open
And love comes pouring in
To every soul that's humbly waiting
With repentance on their lips
And we can call upon His power
If we are pure in heart
And he will hold us and protect us in His arms

There is power in His name
It reminds us why we're here
He's the one who took our place
And who wipes away our tears

There is power in the love
That he freely gives away
And we can feel it in our hearts
When we do the things he taught
There is power in His name

Bridge

There is power in His name
