

“Just A Feeling”

Sometimes the heavens open
And light comes pouring down
He speaks in words unspoken
His mercy calling out

It's like a gentle whisper
That's leading you along
To do some good in this world
And open up your heart

Chorus:

But it's just a feeling
That you get inside your chest
It's just a feeling
Till you follow what it says
And when He sees the way you live
He'll let you feel that way again
It's just a feeling
But that feeling
Could change everything

When He sees his children suffering
The way He shows His love
Is by pushing us together
So we can lift each other up

Chorus

Bridge:

So, let Him lead you on
Give your will to him
Pay attention to the burning in your heart
And you could change the world
If you're listening
That's where it begins

Chorus
