

“Mistakes”

It's like you've been hypnotized
Stumbling your way through life
And it's weighing you down
Wanting to do what's right
You fall every time you try
What are you gonna do now

Pre:

You could hang your head low head low or
You could pick yourself up move forward
No matter how bad it gets it's not over
It's not over

Chorus:

You're not your mistakes
It's just something you do sometimes
But that's not who you are
In your heart
Cause you keep on trying
So, don't be so hard on yourself
Just ask Him for a little help
This is only a phase
And there's time to change
You're not your mistakes

The worries inside your head
Tell you that you should quit
Cause it's a little too late
But you know that it's a lie
Cause your future's burning bright
And He will light the way

Pre

Chorus
