

"Rest"

You've been dreaming
Eyes wide open
Struggling in the dark
Tired of all the chaos you've been through
You will find what you're needing
If you open up your heart
Call His name
He's been waiting for you

Chorus:

You'll find rest from your worries
You'll find peace for your soul
You'll find strength in your journey
Wherever you go
You'll find light in the darkness
And hope once again
When you follow the Savior
You'll find rest

Lay your head down on His shoulder
He can take the pain away
He knows exactly what you need
He's your healer, your protector
He came and took your place
So, come and lay your burdens at His feet

Chorus

Bridge:

And through every mountain you climb
Every tear that you cry
He'll be by your side

Chorus
